Personal Profile System® Graph InterPersonal Profile

Diane Elgin - Agent
Paul - Achiever
Jill - Promoter

Cliff - Agent
Cynthia - Creative
phrase - Result-Oriented

This graph displays several people's responses to the InterPersonal Profile as compared to Diane Elgin's self-perception. The graph shows how each person perceives the intensity of Diane Elgin's DiSC® Dimensions of Behavior. The Classical Pattern that represents the combination of tendencies that comprise the profile pattern as seen by others is also displayed. By comparing perceptions of several different people with his own perception of his behavioral tendencies, Diane Elgin can evaluate how effectively he is communicating. The degree to which other people see him as he sees himself tends to be a measure of the effectiveness of the communication process. Where there are significant differences in perception, the responses may have been influenced by behavior Diane Elgin is using to meet the behavioral expectations of his role or position which is not natural to his style. The Role Behavior Analysis™ may help clarify any confusion between role-based behavior and his natural behavioral tendencies.

Behavioral Tendency Continuum

This Continuum compares several people's perception of Diane Elgin's behavioral tendencies to Diane Elgin's self-perception using thirty-two specific behaviors. The Continuum is based on the Classical Patterns derived from the InterPersonal Profile responses rather than on actual, observed behavior. The potential behavior displayed on the Continuum represents information about differences in perception not a judgement of the behavior.
